

Manufacturing represents unique security challenges from complex health and safety issues to critical monitoring of machinery and stringent vehicle checks. Black Diamond Security will work closely with you to devise a security solution that is both relevant and robust for your business needs. Our staff can provide contractors, induction training and total management of site rules and regulations.

We have extensive experience of dealing with the transfer of personnel under TUPE. Our operations and HR managers will ensure this is as seamless for the staff as it is for the continuity of the service.
